OBJECTIVE

Motivated and enthusiastic second-year computer science student with a strong passion for Data Structures, Algorithms, and Software Engineering. Seeking opportunities to apply problem-solving skills and build real-world software solutions while continuously learning and growing in the field of technology.

EDUCATION

Bachelor of Technology, Banasthali Vidyapeeth 2024-2028
Relevant Coursework: Electronics and Communication Engineering(**2nd Year**) **Cgpa:7.86**

SKILLS

Programming Languages	C, C++, Java, JavaScript
Web Development	HTML, CSS, Bootstrap, Frontend Development, Node.js, MongoDB
Technical Skills	Data Structures and Algorithms, OOPs, STL, GitHub
Competitive Programming	Codeforces: Profile (100+ problems solved)

EXPERIENCE

Open Source Contributor – GirlScript Summer of Code (GSSoC) Sept 2024 - Present

- Contributed to open-source projects under GSSoC, an initiative promoting diversity and women in technology.
- Worked on real-world codebases by fixing bugs, enhancing features, and collaborating with 20+ contributors across global GitHub teams.

Hackathon Participant – GenIgnite & Hack With Rajasthan 2025

- Participated in the **GenIgnite Hackathon** hosted at Microsoft Office (8-hour duration) and secured a position in the **Top 10 teams**.
- Achieved **Top 3 position** in **Hack With Rajasthan**, a 24-hour offline hackathon, demonstrating strong problem-solving, teamwork, and rapid prototyping skills.

PROJECTS

Image OSINT Intelligence Tool Developed a digital forensics prototype to verify image authenticity using reverse image search, metadata & GPS extraction, AI/deepfake detection, and manipulation analysis. Built with Python and Gradio. [Demo Video](#)

Mentis Full-stack mental wellness platform with AI chatbot, public chatbox, and story-sharing features using Node.js, Express.js, MongoDB, and Bootstrap. [Live Demo](#)

Spacecraft Object Detection using YOLO Trained a YOLO-based object detection model for 100 epochs to identify essential spacecraft tools for astronauts, enabling accurate real-time detection.

EEG Analysis Console React-based AI/ML web application for EEG signal visualization and epilepsy risk prediction with live graphs and prediction scoring. [Live Demo](#)

EXTRA-CURRICULAR ACTIVITIES

- Active member of the Yoga and Aerobics clubs, promoting physical wellness and mindfulness.
- Participated in the Drama Club to enhance creativity, expression, and stage confidence.
